Data

Connectivity is essential to ensuring your operations run smoothly.

It is vital that your business has secure, superfast, responsive and reliable connectivity. We provide you with the best pricing on a range of connectivity and infrastructure solutions.

- Converged voice and data networks
- High performance radio network
- Network design and consultancy
- Superfast connectivity
- Network infrastructure
- Data centre hosting

High Speed Connectivity

It is vital that your business has secure, superfast, responsive and reliable connectivity. Depending on your location we can offer you faster alternatives which can have a significant impact on your daily operations and potentially save you money.

- **Several broadband technologies and options available**
- **Tailored to suit your specific business requirements**
- **Specialist advisors to help you find the best solution**

Network Infrastructure

We provide a flexible, scalable IT environment, optimised to evolve based on your changing needs and opportunities. Whether its LAN or WAN to support your team or remote working solutions to aid those who need to work remotely, we have the solution for you.

- **Tailored solutions to ensure we offer the best solution**
- **SLAs protect & maintain your business' critical services**
- **Remote monitoring and first line support**

Radio Network

A breakthrough product, EtherReach offers all the speed and reliability of fibre optic connections, at lower cost and installed in as little as five days. Delivered via our secure, high performance radio network, EtherReach is available in areas where traditional connectivity is unavailable or prohibitively expensive.

- **Five-Day Installation**
- **No telephone line required**
- **Dedicated line with unlimited Usage**

Data Support

70%
of businesses say their **downtime** is caused by **MIGRATING DATA** from **physical** to **virtual** environments

We can provide levels of support to suit the exact needs of your business; from large enterprises right down to smaller teams of 3 or 4 employees.

- **Dedicated, direct-dial expert helpdesk**
- **Online portal for fault logging and tracking**
- **Engineer callouts to resolve on-site faults**

Data Centre Hosting Solutions

We can offer you a virtual or dedicated cloud-based server environment located in our secure data centre, allowing you the flexibility to access your data from anywhere without the headache of support.

- **Useful for sharing resources like files & applications.**
- **Data backup provides security should the worst happen**
- **Evolve as your business needs change.**
