

HORIZON

Unlimited communications

DESKTOP CLIENT

Bring the power of Horizon to your Windows or Mac-powered desktop or laptop device and access a range of new features to ensure your colleagues and customers are always in contact.

Using the Horizon Desktop Client you can:

The Horizon Desktop Client lets you connect your office through multiple devices. It works seamlessly with the Horizon Mobile Client and core Horizon services to ensure you can always manage your user account.

- Reduce the cost of entry to an IP hosted service by using the client as a softphone and simply adding a headset.
- Reduce telephony costs when on the move, abroad or in temporary access points such as hotels, coffee shops, customer premises etc.
- Monitor your favorite contacts' Presence status to check their availability to take calls or to communicate with you.
- Send an Instant Message to get an immediate response from a colleague whose Presence status tells you it might not be convenient for them to take a voice call.
- Connect customers who use other messaging services to your company so you can quickly communicate with them and build a new route for direct customer support.
- Directly control your user account to implement Call Forwarding, Do Not Disturb or other call features.

The Horizon Desktop Client provides a new way to interact with Horizon and using existing devices you can reduce the cost of entry to a hosted solution, as well as ensuring telephony costs incurred whilst on the move or in different locations are kept to a minimum.

New features such as Presence and Instant Messaging add to the core Horizon services and provide an informed way of communicating with your colleagues, as well as giving you a new route to gain immediate responses when it might not be convenient to speak on the telephone.

Discuss your solution now!

Speak to your account manager today to discuss our unique low-cost pricing options and incentives or to find out more about the range of Horizon solutions.
